**Scoville Promoted
To New CIA Post**

Herbert Scoville, Jr., of 101 Old Georgetown Pike, has been promoted to the new position of deputy director for research by Central Intelligence Agency Director John A. McCone.

Mr. Scoville, a physicist, formerly was in charge of the agency's scientific section. He also has worked for the Atomic Energy Commission and the Defense Department.

A native of New York City, Mr. Scoville is a graduate of Yale University and also studied at Cambridge and Northwestern universities.
